The Conservation Commission hosted Casella to our Non-public Work session. This Meeting was to have Casella explain the wetlands permit to the Board members so that we can advise the Select Board as to any Pros/Cons that we may have/see. Also, to grasp a better understanding of the Landfill wetlands permit.

There were some questions asked by the members that were answered in detail from the Casella representatives.

All three Select Board members were present for the meeting as well.

Casella invited the Conservation Committee to an onsite meeting at the proposed Dalton Landfill site. It was agreed upon all members that November 2nd 2020 @ 2pm would work best for all attending parties. The Commission informed the SB Liaison while she (Tamela Swan) was present at the meeting.
